

MA/Credential Program SUMMER BRIDGE 2009

The **Summer Bridge** begins **Sept. 8th** and lasts until **Sept. 23**. It is a “bridge” between the summer and fall quarters. It provides you with a head start on fall classes so that you will receive instructional support as you begin working in your classroom placements. In addition, since you will be enrolled in fall classes for a total of 17 credits (19 credits for BCLAD students), the Summer Bridge allows you to start some of your courses two weeks early and ***end some courses earlier*** in the fall quarter. When you reach the end of fall quarter, you will appreciate the lower course load.

PLEASE NOTE: In order to accommodate the majority of our MA courses in our Humanities/Social Sciences classrooms the ***times, day or location*** of some of the Summer Bridge courses change after the start of fall quarter on Sept. 24th. These changes are included below.
