Dr. Sharon Nelson-Barber

Director of the Culture & Language in STEM Education, WestEd Science, Technology, Engineering, & Mathematics (STEM) Program

Co-founder of POLARIS (Pacific/Polar Opportunities to Learn, Advance and Research Indigenous Systems).

Dr. Nelson-Barber will share stories about her field research experiences with context, culture and community knowledge and ways that adaptation to local and cultural contexts of education should be a primary consideration when applying research-based innovations and “best practices.”

Wednesday, October 11th, 2017 10:00 am - 12:00 pm
McHenry 0266 (Basement).
